Diagnosis and treatment of children with neuropsychiatric disorders

This course is being offered for the first time by an exciting line-up of experienced speakers. The program will use a mix of didactic and case-based teaching in small groups to address mental health and behavioural problems in children with neuropsychiatric disorders. The objectives of the course are to increase the physician’s knowledge and skill in identifying, diagnosing, treating and referring patients with childhood onset neuropsychiatric problems, including Attention Deficit Hyperactivity Disorder, Obsessive Compulsive Disorder, Tourette Syndrome, anger and anxiety.

The course is accredited for up to 12 Mainpro-M1 credits by the University of Toronto and will be of interest to Psychiatrists, General Practitioners, Pediatricians, Neurologists, Psychologists, Social Workers and students of these disciplines.
