I am a veterinarian and graduated from Cornell University with a DVM in 1992. I practiced mixed animal medicine and then companion animal medicine for 10 years. (I describe companion animal medicine to my human health care provider colleagues as a mixture of the complexity of geriatric medicine in a pediatric non-speaking patient.) I received my MHSc in Family and Community Medicine from the University of Toronto in 2005- with a focus on continuing medical education. In May, 2008 I passed the National Commission’s international exam and became a Certified Continuing Medical Education Professional (CCMEP). I now work in both veterinary curriculum design and continuing professional development for physicians. I am a Medical Education Consultant for the Office of Continuing Professional Development at the Faculty of Medicine at U of T and a consultant to the Dean of the Western College of Veterinary Medicine. I speak and publish internationally on One Health topics.
Dr. Jared Peck is an Assistant Professor in the Department of Psychiatry at the University of Toronto. He earned his MD from the University of Toronto in 2004 and completed residency in psychiatry at the University of Toronto in 2009. His clinical practice is based at Mount Sinai Hospital where he is the Head of Ambulatory Psychiatry and Head of CBT Services. Dr. Peck has completed training the IDEAS Advanced Learning Program in Quality Improvement. He is a certified cognitive behavioural therapist with both the Academy of Cognitive Therapy and Canadian Association of Cognitive and Behavioural Therapies. Dr. Peck is actively involved in resident education and has presented at both the Canadian Psychiatric Association and American Psychiatric Association annual meetings on CBT and Safety and Quality Improvement in Mental Health.
Dr. Sanjeev Sockalingam is an Associate Professor of Psychiatry at the University of Toronto and Vice President, Education at the Centre for Addiction and Mental Health. He is currently the co-lead for the Extension for Community Healthcare Outcomes (ECHO) Ontario Mental Health at the Centre for Addiction and Mental and Health and the University of Toronto, which is a provincial hub-and-spoke knowledge-sharing network model building mental health and addiction capacity in rural Ontario. He is the Director of Curriculum Renewal for the Medical Psychiatry Alliance, systems and education initiative building capacity in integrated physical and mental health care.

Dr. Sockalingam has >135 peer-reviewed publications and is a lead investigator on several peer-reviewed clinical and medical education grants. His clinical research interests are focused on Medical Psychiatry, including obesity and mental health. His education research is focused on training for managing complexity, alignment of quality improvement and continuing professional development, and understanding factors influencing lifelong learning in practice. He has been the recipient of several national and international education awards.
Dr. David Wiljer is a member of the community providing groundbreaking perspectives and inspiring contributions to digital health policy, management, education and evaluation. He is the Executive Director of Education, Technology & Innovation at the University Health Network, and former Senior Director of Transformational Education and Academic Advancement at CAMH. David is also an Associate Professor in the Department of Psychiatry, Faculty of Medicine and the Institute of Health Policy Management and Evaluation at the University of Toronto. He is a former President of the American Association of Cancer Education, and the current Chair of the Scholarship Committee for the Society for Academic Continuing Medical Education. Dr. Wiljer has led research and development projects that focus on putting knowledge into action by utilizing health information technologies and knowledge management approaches to promote lifelong learning and CPD. Through his research and scholarship, he also explores the impact of digital technologies on patient partnerships and on high quality care.
